

DECIDEDLY BETTER
DAY-BRITE
Lighting Fixtures

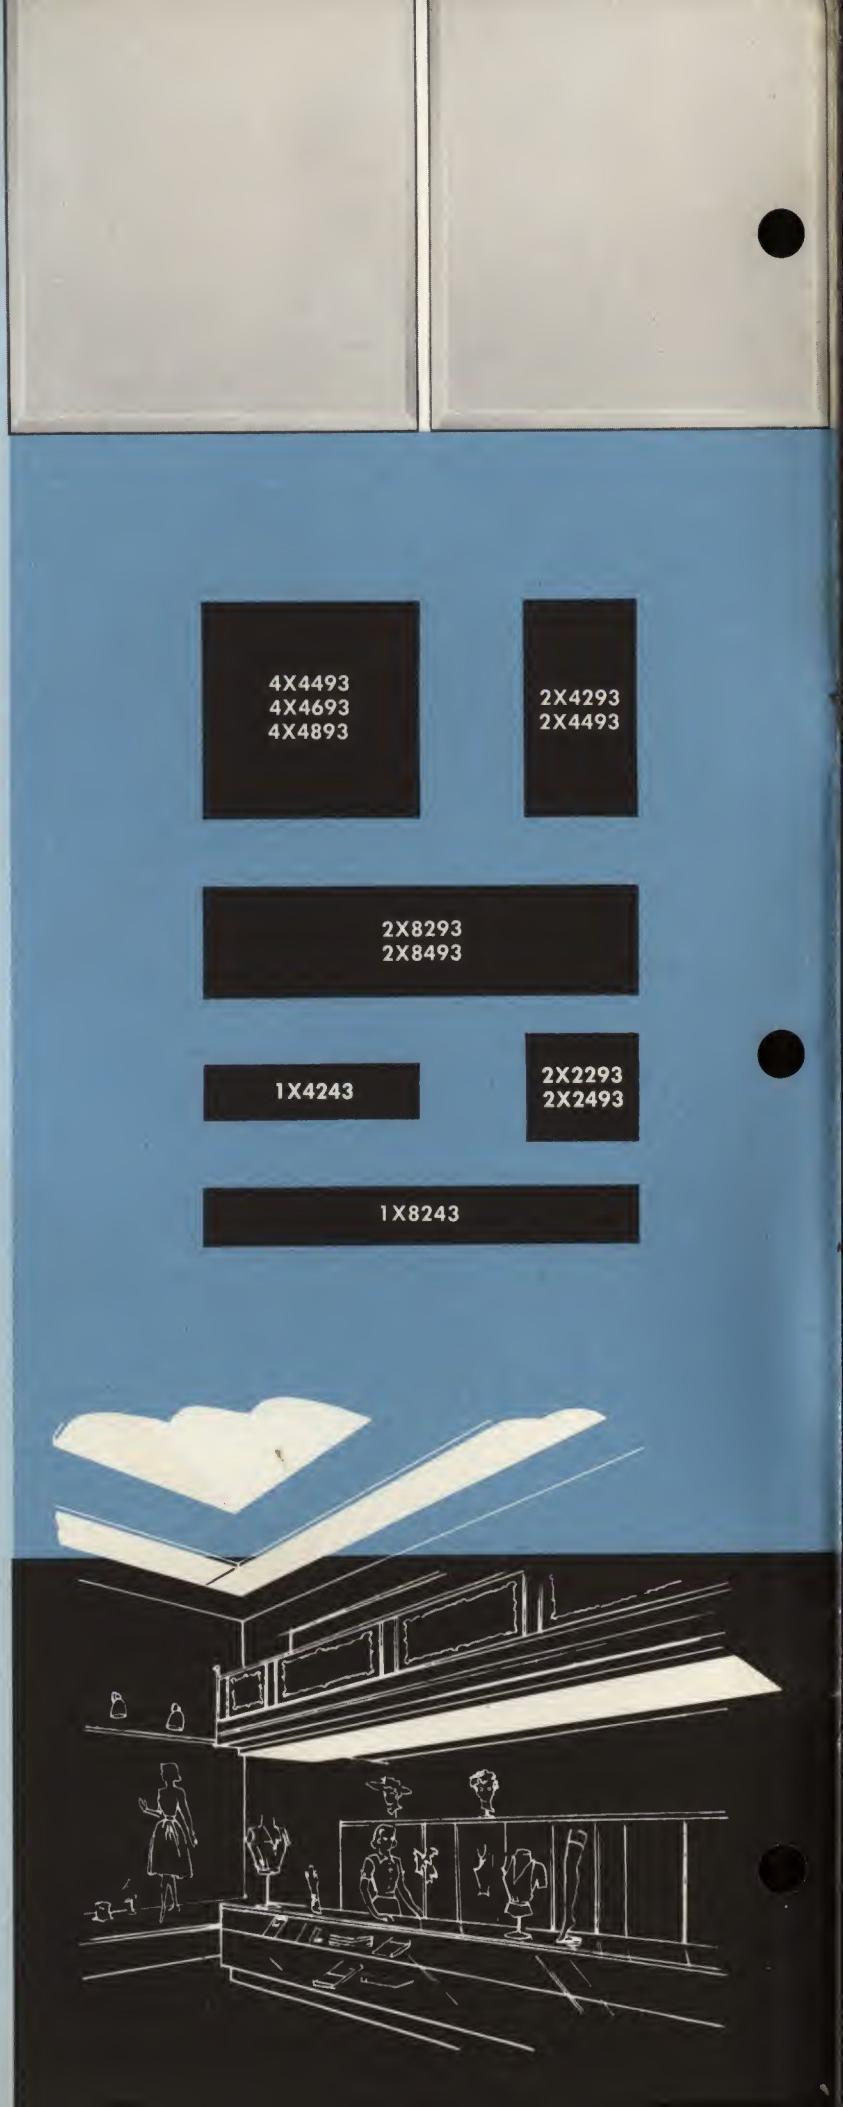

DAYLUME®
SURFACE LIGHTING ELEMENTS

D

aylume was designed to combine smartly styled high quality surface lighting with maximum flexibility of installation. From enclosure frame to ceiling measures only 3½ inches, yet this architectural element produces Day-Brite's usual high standard of comfortable lighting. Clean linear styling is always pleasing...blends harmoniously in newly constructed or modernized locations...adds a contemporary note to older ones.

Extremely slim profile and easy surface installation make Daylume the ideal choice where recessed lighting may be preferred but is not possible due to structural or budget limitations.

Daylume is the most complete line of surface mounted elements available today...50 models provide the architect-designer custom choice from production units. In this wide array of fixtures there's a Daylume to meet most any lighting requirement.

ALL UNITS 3¹/₄" DEEP

Clean sculptured appearance, Crestex provides pleasing illumination for stores, lobbies, banks, auditoriums, and shopping centers.

The evenly illuminated plastic panel will not discolor... is easily hinged from either side or completely removed. Six sizes and eleven lamp combinations provide the correct choice for all room dimensions and ceiling heights... A magnificent lighting team.

DAYTEX® PLASTIC ENCLOSURES

Daytex enclosures introduce an easy on the eye accent to contemporary ceilings . . . Light is diffused evenly and smoothly through light-stabilized plastic. Concentric square design is always in good taste.

Enclosures are completely framed . . . Day-Brite's exclusive separable hinges allow installation from either side . . . reduces maintenance time.

A superb choice for shopping centers, lobbies, restaurants.

A wise selection for private and general offices . . . Daylume with Corning Pattern 70 glass provides excellent light transmission with controlled brightness . . . Lens panel is softly cushioned in vinyl gasket. Frames have inner flanges for added strength.

Bushed openings in ends and sides of fixture body allow unlimited installation patterns.

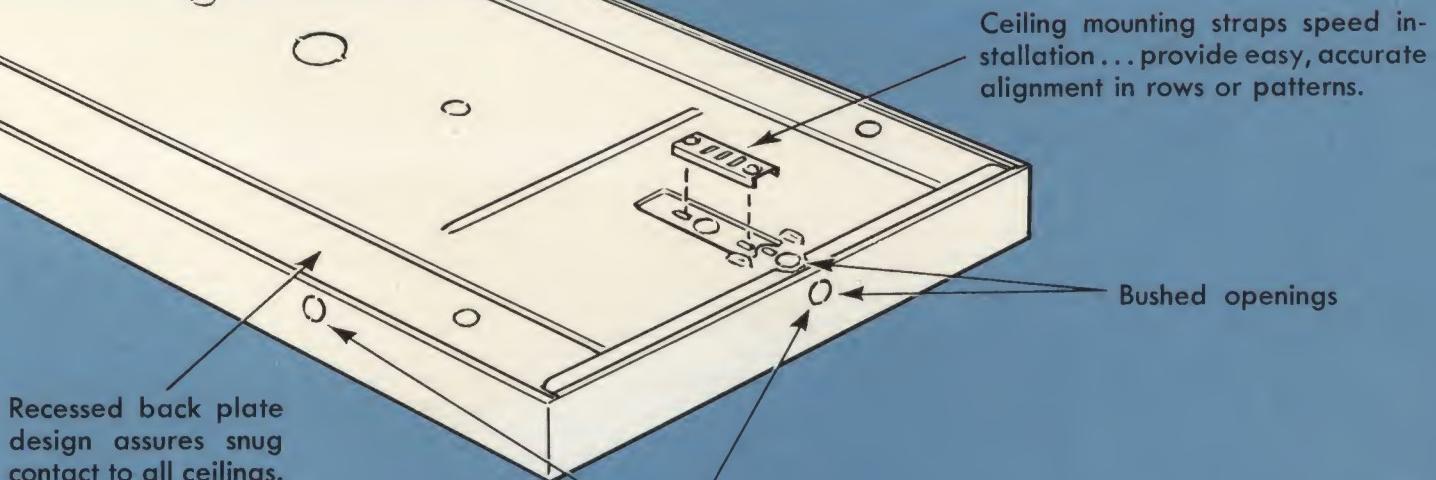

4 - SQUARE RECESSED ELEMENTS

WHERE RECESSING IS POSSIBLE... incorporates the same outstanding features as the 4 x 4 Daylume. 4-SQUARE answers the need for a large recessed lighting element of shallow (4-inch) dimensions... Recesses neatly in plaster or acoustical ceilings... Appearance is enhanced by a special splay providing a "blending section" between the luminous enclosure and the surrounding ceiling area.

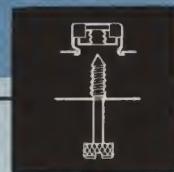

Combines readily with Daylume, Mobilex and Troffers... wide choice of enclosures and lamp combinations available.

DAYLUME FEATURES

Daylume styling is slim, always pleasing...Complements all interiors, new and old.

Knurled latch screws, floating caged nuts and Day-Brite's exclusive separable hinges make installation or removal of enclosures fast and easy.

The slim profile of Daylume elements blends beautifully with Day-Brite's Mobilex, Troffer, and 4-Square series... Matching enclosures for both recessed and Daylume units lend continuity of design to ceiling areas... Allow recessed equipment and Daylume to be mixed and matched.
